# ALL-IN-ONE

Nigeria National Defence College (NDC) in Abuja revamps its main auditorium with TecPodium Interactive Lecterns

Established in 1992, The National Defence College (NDC) is the highest military institution for the training of senior military officers in Nigeria.

It is the apex military training institution for the Nigerian Armed Forces, and a Centre of Excellence for peace support operations training at the strategic level in West Africa.

# **Choosing the Solution**

The AV integrator choose to deploy two Tecom Electronics TecPodium Interactive Lecterns TPI-12W podium. The Interactive Lectern provides a world class connectivity with other appliances in the hall.

# A Project is Born

The College main 450 seats auditorium required highly advances solution for presentations and controlling the Audio-Visual equipment in the room.

The project consultant Hewelt Systems Ltd was instructed to provide a solution to the challenge. The intention was to allow trainers and participants to give presentations seamlessly from their podiums without relying on the control room operators to call up their slides. Additionally, the projector in the room had to be updated to support as a backup alongside an LED video wall display.

Sporting a modern look and an easy-ofuse push-buttons, user friendly interface, the TecPodium Interactive was chosen for its smart capabilities, helping presenters focus on their materials. TecPodium Interactive unique design allows seamless transition of presentation sources – from PC to laptops, document cameras and more.

# **On the Technical Side**

The AV Integrator installed a 4.5 x 3 m LED screen with a motorized screen as a backup. This was to provide a professional display solution for such a large audience with an immersive viewing experience. The control room was fitted with video mixer switchers to take and switch multiple audio and video inputs.

In both sides of the auditorium, two fully equipped TecPodium Interactive lecterns (TPI-12W) were installed with multi-touch capabilities serving as the brainbox for presentations and lecturers.

### **The Power of Collaboration**

From a planning stage to choosing what systems will make the cut, professional teams from both the integrator and manufacturer sides worked in complete collaboration with the client. In turn, this resulted in a wellprepared project followed by a smooth installation exactly as planned. Idongesit Inyang, Hewelt Systems Limited CEO: "The College lecture theatre is the flagship project in the military establishment in Nigeria in recent time. It is the largest and one of the main halls the College has to offer, therefore, it was important to demand an AV solution that would address modern presentation needs with superior technology that guarantees security and flexibility to a high-profile client like this".

"TecPodium All-in-One commanded the attention of all the visitors as it answered all presentation needs in one, easy solution.

There could be no better solution than this, both in desian and function" says Inyang. "Tecom manufactured. quality-assured and shipped the units completely assembled and ready to use. We took it out of the box, plugged it and we were good to go!"

Efrat Elitzur, Tecom Electronics Account Executive: "We're glad to finalize another successful project with Hewelt Systems Ltd in Nigeria. We are glad to see the use of our Interactive Lecterns by another worldwide governmental institution as Tecom puts the client satisfaction as top priority".

# **The Result**

The AV part of the project was completed in record time, thanks to the smooth installation of the two Interactive TecPodium. As one of the key components in this project, it was important for the client to know how to operate the TecPodium in their daily use. "Tecom has vast experience when it comes to customers from the different government sectors and, in custom projects just like these, is where our team and product shines bright. Tight schedule, custom manufacturing and fast delivery while working closely with the client and integrator, just to make sure everything is covered, is embedded in our service delivery culture DNA.

We're very happy to complete yet another successful international project and already working on other multiple ones".
