

Integrated Presentation Podium!

TecPodium W is a breakthrough audio-visual lectern. It has every multimedia capability built-in, and is managed through one simple control panel, suitable for classroom and training rooms.

The stylish wooden podium accommodates all the Audio-Visual equipment typically used in a presentation, with a locking door that keeps it safe and secure.

TecPodium W is equipped with Tecom breakthrough control panel for seamless operation and easy switching between the different AV sources. Just a few keys, with icons that transcend language, are in place to control every AV device, sound and even house lights.

TecPodium W is a turn-key solution which is easy to install and use. Reliability, ease of use and effectiveness has made TecPodium a desirable presentation solution.

TecPodium Lecterns have already gain enormous success, with hundreds of installation sites worldwide in various organizations, including: universities, colleges, corporate, military and government training facilities, conference centers and more.
